- Superposition
- E + m = light
- Waves (sound, strings, water, gravitational waves)
- Standing waves
- Wave guides
- Double-slit interference
- Beats
over time:

interference of 2 waves, left-going and right-going.

Two velocities:
1. wave pattern velocity "φ"
2. velocity of string—ionium atoms

A P.E. 70
B K.E. 70
